* Please do not remove the original key during the Texas 80-bit cloning procedure. In case of the cloning process interruption, the original key could remain damaged. In this case the cloning device automatically recognizes the non-functioning of the original key and restores it. If the recovery is not successful, it is necessary to carry out a manual reset by diagnosis.

* 拷贝德克萨斯80位芯片的过程中请不要移动原钥匙。如果拷贝过程中断，原钥匙有受损的可能。这种情况下拷贝设备会自动识别原钥匙无法使用并修复。如果恢复不成功，则需要通过诊断进行手动重置。
